SUMMARY

A passionate web technology researcher currently working for Holycode/Guestfriend. Very motivated to learn new technologies and master learned. I prefer working in a team environment where everybody can learn something from others. I graduated with the highest marks. My specialties are Frontend and ReactJS, but I also use other JavaScript libraries for both Frontend and Backend.

EXPERIENCE

❖ Frontend Developer, Holycode (Guestfriend) May 2024 — Current
Belgrade, Serbia

Working for Guestfriend and their newest product that represents the mixture of Jira and Slack, but for the hotels (staff and guests). Tech stack: React, MaterialUI, URQL, Redux. Also, we are developing Patient Portal for medical treatment system in Germany (internal product). Tech stack: Astro.js, React, CSS Modules, Nanostore.

❖ Frontend Developer, Folddy Sep 2024 — Current
Remote

Developing FE of the document management system and landing page. Tech stack: React, MaterialUI, Tanstack, Astro.js.

❖ Full Stack Engineer, Mailmergic Jan 2024 — Oct 2024
Remote

Developing Platform that handles templating for emails from Excel tables to PDF documents saving companies precious time. Tech stack: NodeJS, React, MaterialUI, GCP, Electron.

❖ Full Stack Engineer, Clariness Mar 2023 — May 2024
Belgrade, Serbia

Developing Platform that connects sponsor in pharmaceutical industry with the Clariness – company that offers services in patient recruitment, connecting sites with sponsors in medical trials, etc. Tech stack: NextJS, React, MaterialUI, Tanstack Query, DynamoDB and AWS.

❖ JavaScript Engineer, Kiwi.com Jun 2021 — Mar 2023
Belgrade, Serbia

The Kiwi.com is a platform used by millions of people all over the world. I was the most responsible person for information domain of the customer support platform that gathers a lot of services in one place. Tech stack: React with TS, Redux, Context, Node.js, GraphQL and Relay.

❖ Indexing Specialist – Web Developer, (NDA Company) Aug 2020 — Nov 2023
Remote

In this position I maintained the platform build for web scrapping, making scripts for searching for the metadata in scientific publishers' journals. Teck stack: React, Node.js and Puppeteer.

❖ Web developer, Freelance (Upwork) Jun 2018 — Aug 2020

Remote

Creating websites of various scales (from local companies to enterprise projects), using various technologies. Website maintenance, enhancements, upgrades, troubleshooting and bug fixes. Most used technologies: MERN stack along with Next.js and GraphQL.

❖ Platoon Commander, Ministry of Defense Sep 2018 — Jul 2021

Belgrade

A business with great responsibility, discipline and the need to think rationally. Collaboration with people and a fair relationship in the collective. Maintaining radar system for reconnaissance (hardware and software).

EDUCATION

❖ Software Engineering 2021 — 2023

Master of Software Engineering,

Nis

Master studies for Master Degree in Software Engineering. Deepening knowledge in the field of software engineering.

❖ Military Academy 2014 — 2018

BA of Management and Engineering,

Belgrade

Radar systems and Air Defense (8.92) Detailed study of electrical engineering and computing during studies at the MA.

Various practices with software and hardware handling. From microprocessors programming and the C programming language to web development and JavaScript.

❖ Military Grammar School 2010 — 2014

Military Non-Commissioned Officer,

Belgrade

Natural Sciences and Mathematics (5.00) "School for the brave" - as it was popularly known. Discipline and work are what marked the schooling in this institution. Acquired great knowledge in mathematics and natural sciences.
